## **YOUR PLACE OR MY PLACE (OR RIGHT NOW?)**

He got dressed and went down to Shakey Jake's, paid O' Leary to give him a good seat,  
Sat there sippin' on a dry martini, got approached by a lady in a black dress, she smiled and asked  
him,

Do you like what you see here now, Do you wanna have some fun with me,  
Do you like what I have for you, Do you wanna spend the night with me,  
At your place or my place or right now just you and me,

Watch them leave the dance floor, 'n' got his jacket at the front door,  
O' Leary said "Goodnight and have a good time", she's acting fickle knowing just what she wants,  
He's like raw meat for her appetite, "don't tell me your name just don't say anything",  
"Take me home and let's go wild tonight", "just relax and let your body be heard", oh yeah, oh yeah,

Do you like what you see here now, Do you wanna have some fun with me,  
Do you like what I have for you, Do you wanna spend the night with me,  
At your place or my place or right now just you and me,

She's upper class, way out of his league, fancy bedroom, mirrors on the wall, mirrors on the wall,

Early morning she sleeps so tight, he wakes her up by kissing her just right,  
She rolls over and rests on his shoulder, a little excited he feels her heart beat,  
She gets up and gets in the shower, imagine the water runnin' down her skin,  
He feels it's time to make a move, gets in the tub and gets her in the groove, and she loves it,

Do you like what you see here now, Do you wanna have some fun with me,  
Do you like what I have for you, Do you wanna spend the night with me,  
At your place or my place or right now just you and me,

Just you and me, just you and me, just you and me, and I love it,

## **SOOTHE ME**

I used to fight the world on my own,  
But I never thought of me being alone,  
I do believe I was feeling good,  
But now I know I was just tripping,

You soothe me, you soothe me, you make me feel so good,  
You soothe me, you soothe me, you really ease my mind,  
You soothe me, you soothe me, you make me feel so good,  
You soothe me, you soothe me, you really ease my soul,

Sometimes when I, I look at you,  
I realize you make me feel so good,  
Don't know how I made it without you,  
'Cos you take care of me like no one else,

You soothe me, you soothe me, you make me feel so good,  
You soothe me, you soothe me, you really ease my mind,  
You soothe me, you soothe me, you make me feel so good,  
You soothe me, you soothe me, you really ease my soul,

You soothe me,

It's four in the morning and I gotta get up,  
I feel your warm body lying next to me,  
I wish that we could lock out the world,  
And stay in bed and just hold eachother 'cos,

You soothe me, you soothe me, you make me feel so good,  
You soothe me, you soothe me, you really ease my mind,  
You soothe me, you soothe me, you make me feel so good,  
You soothe me, you soothe me, you really ease my soul,

You soothe me,

## **WE ALL NEED SOMEONE**

You work twenty-four seven making money you could never spend,  
Buying things you don't really need at all,  
You try to tell yourself you're doing great on your own,  
But your heart screams out for someone to love,

We all need someone to love, we all need someone to hold,  
We all need someone to trust, we all need someone to care for,

Your friends hook you up, they try to help you out,  
But blind dates have never been your kind of game,  
It's hard and you're never on top, keeping a straight face to your friends,  
The Holidays really break you apart,

We all need someone to love, we all need someone to hold,  
We all need someone to trust, we all need someone to care for,

You say "I'm doing just fine" and that you don't really mind,  
Seeing all your friends get married, that's a heavy load to carry,

You know all the pick up lines, you got all the right moves,  
But true love is so much more than that,  
You say you don't want a wife, you brag about your wild life,  
But your friends can see right through you,

We all need someone to love, we all need someone to hold,  
We all need someone to trust, we all need someone to care for,  
We all need someone to love, we all need someone to trust,  
We all need someone to love, we all need someone to fuck,

## **DON'T WANNA LIVE WITHOUT YOU**

I try to live my life without thinking of you,  
It's easier said than done, I can't get you out of my mind,  
They say time heals all wounds but I guess it's not true,  
With all the time that passes by I just can't go on without you,

Don't wanna live without you baby,  
I wanna have by my side,  
Don't wanna live without you darling,  
I wanna be with you again,

I'm sitting here all alone and reading all your letters,  
I'm laughing and I'm crying 'cos it could've been so much better,  
I said I'm sorry but you wouldn't listen,  
And I think that you should have given me another chance,

Don't wanna live without you baby,  
I wanna have by my side,  
Don't wanna live without you darling,  
I wanna be with you again,

Be with you again,

I've tried to call you but I was so scared,  
Scared of what you might say if you'd ever talk to me again,  
And I'm looking for a way out of my misery,  
And as long as you're not here there's no hope for me,

Don't wanna live without you baby,  
I wanna have by my side,  
Don't wanna live without you darling,  
I wanna be with you again,

## GREEK GODDESS

Nobody's perfect but she gets really close and I'm so lucky to be calling her my girl,  
Holding her hand when we walk down the street, guys are looking and I'm so proud,  
She's my woman and I love her so much, she's so beautiful she makes me feel so good,  
Me and her for the rest of our lives, she's gonna be the mother to all of my kids,

She's all that I need, she's all that I want,  
She's my Greek Goddess, my Greek Goddess,  
And she's mine, just mine, just mine,

I used to look like a ragged old hobo, she showed me what to wear and how to wear it,  
Together we're unseparable never apart, the best God damn team the world's ever seen,  
It might be stormy and heavy weather, when it's calm we're still standing there,  
Goin' to bed with a smile on my face knowing I got all that I've ever wanted,

She's all that I need, she's all that I want,  
She's my Greek Goddess, my Greek Goddess,  
And she's mine, just mine, just mine,

She looks like a Greek Goddess, and I tell ya, she looks like a Greek Goddess,  
Oh, yeah, here we go,

(In Greek:) Sagapw para polu agaphmou, ela pamme spiti mou  
(Translated: I love you so much darling, c'mon let's go home to me)

With this golden ring on my finger, I show the world that I belong to her,  
They say that we look good together, a match made right in heaven,  
Athens in the summertime just you and me, have such a good time you ease my mind,  
No worries no trouble what so ever, you and me it could never get any better,

She's all that I need, she's all that I want,  
She's my Greek Goddess, my Greek Goddess,  
And she's mine, just mine, just mine,

## **BORING BLOKE**

Sitting here looking at the wall being so totally bored,  
Saturday got nothing to do and I can't just sit right here,  
I all up good old Jacky, "Hey man what's going on?",  
"Got any plans for tonight?", "Got any places to go?"

Let's go out and dance, c'mon and take a chance,  
We could find romance, he said "no way, no way";  
'Cos he's a boring bloke,

"Hey man are you kidding, what the hell are you gonna do",  
"You just sit there in your flat gaining nothing but fat",  
"Let's go up town and buy the girls a round",  
"See their smiling faces, It won't kill you just to try",

Let's go out and dance, c'mon and take a chance,  
We could find romance, he said "no way, no way";  
'Cos he's a boring bloke,

So many times I told you love don't come knocking,  
You gotta get up and find it, it's out there somewhere,  
Put on your best shoes, turn off the TV,  
Take a cab to the city, I'll meet you at the front door,

Let's go out and dance, c'mon and take a chance,  
We could find romance, it won't be that bad,  
Let's go out and dance, c'mon and take a chance,  
We could find romance, he said "no way, no way";  
'Cos he's a boring bloke,  
Man

## **I'VE HAD IT**

All alone, through the night, sitting up and waiting for you,  
I know that you've been out hanging with them guys, leaving me sitting here at home,  
And I'm so tired of sitting here,

I've had it with you, (had it), I've had it with you, (had it),  
I've had it with you, (had it), I've had it with you, (had it),  
I've had it with you, (had it), I've had it with you, (had it),  
I've had it with you, (had it), I've had it with you, (had it),  
I've had it with you,

I've waited for so long for you to say you love, but those words never cross your mind,  
Everybody knows you're cheating on me, and the shame is hard to bare,  
Oh God take me out of here,  
Endless hours of secret phone calls, you think I'm just another of your fools,  
A hopeless romantic who thought you could change, which makes me just a fool,  
But I've had it, I've had it, I've had it up to here,

I've had it with you, (had it), I've had it with you, (had it),  
I've had it with you, (had it), I've had it with you, (had it),  
I've had it with you, (had it), I've had it with you, (had it),  
I've had it with you, (had it), I've had it with you, (had it),  
I've had it with you,

The bags are packed, I'm standing by the window, looking down the street looking for you,  
It would be nice to see you one last time, but staying home have never been your thing,  
But the note on the mirror says it all I guess,

I've had it with you, (had it), I've had it with you, (had it),  
I've had it with you, (had it), I've had it with you, (had it),  
I've had it with you, (had it), I've had it with you, (had it),  
I've had it with you, (had it), I've had it with you, (had it),  
I've had it with you,

## FOOLING AORUND

All dressed in black, repeat the favorite track, I'm trying to get in the mood,  
Looking in the mirror, polish my shoes, I'm trying to look good,  
Don't know who I'll meet, don't know where I'll be, maybe I'll strike gold,  
Breathing in my hand, it smells alright, I'm ready to be kissed, (so hear me now),

Oh yes I'm ready, Oh yes I'm ready,  
Oh yes I'm ready, Oh yes I'm ready,  
For fooling around, for fooling around,

Sipping on a drink, I look at the time, I call a cab,  
Looking out the window, no clouds in sight, I leave the coat,  
Looking for the cab, it's running a little late, I don't mind,  
I check my bed, it's clean and tidy, just in case, (oh yeah),

Oh yes I'm ready, Oh yes I'm ready,  
Oh yes I'm ready, Oh yes I'm ready,  
For fooling around, for fooling around,

(let me hear it now)

Oh yes I'm ready, Oh yes I'm ready,  
Oh yes I'm ready, Oh yes I'm ready,

Sitting by the bar, talking to a lady not going anywhere,  
So I move across the floor to a baby who's been looking, she won't turn me down,  
I take her home, smoothly I tell her, "I don't want this to be serious",  
She smiles at me, whispers in my ear "neither do I", (thank you Lord)

Oh yes I'm ready, Oh yes I'm ready,  
Oh yes I'm ready, Oh yes I'm ready,  
For fooling around, for fooling around,  
I wanna fool around,

## MY ONLY LOVE

Did you know that you've been on my mind, every day for nine long years,  
And I would really love to hold you in my arms for eternity,  
Did you ever really understand that my heart screamed out for you,  
And though you moved out of town I haven't forgotten you,

'Cos you're my secret dream,  
In fact you're my only love,  
And I've tried to get you off my mind,  
But you're my only love, yeah you are,

I don't know where you are today, where you live or what you do,  
Are you still being a nurse, working almost every day,  
Have you married a beautiful man, are you happy with your life,  
Do you ever think of me, 'cos I admit I think of you,

'Cos you're my secret dream,  
In fact you're my only love,  
And I've tried to get you off my mind,  
But you're my only love, yeah you are,

I love you forever,

I really hope you get a good life, long and prosper a healthy life,  
I confess I'm sorry that we never took the chance,  
Maybe we weren't meant to be, I don't know but that's the way it is,  
But I will never forget your face, I'll remember it 'til I die,

'Cos you're my secret dream,  
In fact you're my only love,  
And I've tried to get you off my mind,  
But you're my only love, yes you are,

I love you with all my heart, I love you forever,  
Forever, forever, my only love,

## **SIT NEXT TO ME**

I don't mind if you sit next to me,  
Tell me a story about anything you like,  
I'm not sure that I'll get what you say,  
'Cos I will be drowning in those brown eyes,

('cos) You got the looks that could stop a train,  
So sure I don't mind if you sit next to me,  
You don't have to say anything,  
'Cos next to you even I look good,

C'mon and sit next to me,  
I wanna have you by my side,  
I don't mind,

I might not be a good looking guy,  
Give me a break and I'll show you what I got,  
You might be surprised what I got up my sleeve,  
And I promise you it ain't a deck of cards,

C'mon and sit next to me,  
I wanna have you by my side,  
I don't mind, no,

You don't have to take me seriously,  
But I'm not kidding if I ask you out,  
Do me the honors and escort me out,  
Don't laugh at me 'cos this ain't a joke,

C'mon and sit next to me,  
I wanna have you by my side,  
I don't mind, I don't mind, I don't mind, I don't mind,  
I don't mind you,

## **FREE**

Sittin' in my car, driving down the road, thinking about the future, thinking about my life,  
What have I been doing all my life, tried to live the life I'm supposed to do,  
I'm not sure that it makes feel good, working for a livin' and paying my bills,  
The only thing that gets me by, daydreams and fantasies,

'Cos I'm free, and so are you,  
Free in our hearts, Free in our minds,

Lock me up in a office all day, treat med bad, treat me like a slave,  
It make's no difference either other way, 'cos my mind can't be beat,  
I'll do the job, anything you ask, I'll even work past daytime,  
It might appear that I agree, but you're wrong, so dead wrong,

'Cos I'm free, and so are you,  
Free in our hearts, Free in our minds,

I'll break free if I can, and there ain't nothing you can do,  
We all got dreams and thing's to do, places to be and maybe it's just a fantasy,

'Cos I'm free, and so are you,  
Free in our hearts, Free in our minds,  
I'm free, so are you,  
Free in our hearts, Free in our minds,

We're all free

## OH JENNA HONEY

I felt the spark when you entered the room, time stopped did you feel it too,  
Or am I wrong are you out of my reach, I think I see it in your eyes can you see it in mine,  
Can you hear it in my voice, does it show in the way I look at you, I want you to be mine,

I love, your brown hair, your brown eyes, that birthmark on your cheek,  
I love, your red nails, your beautiful smile, that spontaneous laugh of yours,

Oh Jenna honey, see it in my eyes, Oh Jenna honey, see through my disguise,  
Oh Jenna honey, look into my eyes, Oh Jenna honey, don't buy all my lies,

We had a good time playing that game, teased each other like a couple of kids,  
Let's do it again or do you wanna stay away, tell me if I'm completely wrong,  
But would you stay with me through the night if you loved your man, what do you want from me,

I love, everything about you, everything you say, I even love the way you sit down,  
I love, your red dress, your red shoes, your red lipstick on your glass,

Oh Jenna honey, see it in my eyes, Oh Jenna honey, see through my disguise,  
Oh Jenna honey, look into my eyes, Oh Jenna honey, don't buy all my lies,

Tell me that you love your man, then tell me why you kissed my cheek, (tell me now)

I see how you're holding hands, I feel I wanna be in his shoes, I'm really sorry, I'm just a jealous man,  
I know how you behave when he's out of town, Nobody else just you and me, I've never told you that  
I really love you so,

I love, the way you look at me, the way you talk to me, how you make it sound so good,  
I love the way you touched me, the way you kissed me, the way you teased me eyes,

Oh Jenna honey, see it in my eyes, Oh Jenna honey, see through my disguise,  
Oh Jenna honey, look into my eyes, Oh Jenna honey, don't buy all my lies, don't buy all my lies, don't  
buy all my lies,  
Oh Jenna honey, Oh Jenna honey, Oh Jenna honey, Oh Jenna honey,  
Don't buy all my lies,  
Oh Jenna honey, Oh Jenna honey,  
Yeah
